PROFESSIONAL SUMMARY

Full-stack web developer with strong MERN (MongoDB, Express, React, Node.js) expertise and hands-on experience in manual web testing and quality assurance. Recent Computer Science graduate of ISET Gafsa (with honors), now pursuing a Professional Master's Degree in Data Science. Built and deployed several full-stack applications, including an AI-powered commercial management platform. Seeking web developer roles (local and remote).

TECHNICAL SKILLS

Web Development: JavaScript, TypeScript, HTML, CSS, React, Next.js, Node.js, Express.js, RESTful APIs

Databases: MongoDB

Tools: Git, GitHub, Postman, Chrome DevTools

Testing & QA: Manual testing, functional testing, regression testing, responsive and cross-browser testing, bug reporting

Data & AI: Python, Machine Learning (currently building hands-on projects), Google Gemini API

PROFESSIONAL EXPERIENCE

Freelance Web QA Tester, Independent 2025 – 2026

- Performed manual testing of websites and web applications, covering forms, login/authentication, navigation, and main user workflows.
- Identified and documented functional and UI bugs in clear reports with reproduction steps, actual results, and expected results.
- Checked responsive behavior on different screen sizes and browsers.
- Verified bug fixes and performed basic regression testing after changes.
- Used Postman to check API requests and responses, and Chrome DevTools to investigate console, network, and layout issues.

Web Development Intern, CodeAlpha 2024 – 2025

- Built two full-stack web applications with the MERN stack: a social media app and an e-commerce store.
- Used Git for version control throughout both projects.

PROJECTS

SMART-TRADE 360° – End-of-Studies Project for ETAP (team of two) 2026

- Built a full-stack commercial management platform with a MERN web application, a mobile application, and an AI chatbot.
- Developed an AI-powered security mode that detects anomalies, along with QR code and PDF generation.

StudyGenius – AI-Powered Study Assistant

- Built and deployed end-to-end an AI study assistant that helps students learn faster, using the MERN stack and Google Gemini.

Restaurant App and To-Do App – Personal Projects 2024 – 2025

- Designed, built, and deployed online two web applications with the MERN stack.

EDUCATION

Professional Master's Degree in Data Science 2026 – Present

Applied Bachelor's Degree in Computer Science (Information Systems Development), ISET Gafsa 2026
Graduated with honors (mention Bien).
